Our Story

Our story began with the words that no parent ever wants to hear: “Your child has cancer.” And anyone who has heard those words will agree...once you’ve heard them, your life is never the same. We’ve been there. We’ve felt what you’re feeling now, and we remember. Your life has been turned upside down, and you have more questions than you’ve ever had before. You’re overwhelmed. And uncertain. And scared. We quickly learned the tremendous impact that cancer has on your normal routine. Our sons, Carlos and Dan, were then ages three and ten, and luckily, we found each other in a support group for moms and siblings of children with cancer. We didn’t know what to expect, but we were both seeking comfort, knowledge, and a way to make sense of our new “normal.” We found that comfort in each other.

After all the tears and occasional laughter through the years of treatment, we knew we had to give back and share what we had learned so we could help those just beginning this difficult and often lonely journey. That is when Circle of Care was born. And that’s why we created this book.

The Purple Pages directory is a compilation of the many wonderful resources available to families of children with cancer -- on the Internet, in print, and in videos. We have sorted the resources into chapters based on different important topics to make it easier for you to find the information you need. Each one has been researched and reviewed to make your search even easier.

The Purple Pages are just one of the many ways that Circle of Care will help you through your child’s cancer journey. We invite you to visit our website at www.thecircleofcare.org to find out about the many programs available to you. From a day of diagnosis bag filled with essentials to hospital and treatment center volunteers; from telephone peer support to dream room makeovers for your child and even emergency financial aide for families with critical financial needs, Circle of Care is here to help.

One final thought...while the resources in this book can be incredibly helpful, some information found on the Internet or in printed materials can be misleading, out of date, or simply not accurate. We will lead you to the best resources that we have found, but because each child’s diagnosis is unique in its own way, we suggest that you always speak with your child’s doctor.

Until no family has to hear the words, “your child has cancer,” we will be here for you.

## NOTES
Carlos, diagnosed at age 2 1/2, is soon to graduate high school.
FOR PARENTS

This resource guide includes invaluable information, compiled by people who faced the same situation that you are facing now. They, too, found themselves as parents of children diagnosed with cancer. No one can take this journey alone, and no one SHOULD take it alone. This book is full of information that has been gathered and edited carefully for different stages of treatment. Although we have broken the information down into sections, many have found it helpful to peruse all of the resources.

This first section is designated for parents, and contains useful sites – from those that enable you to set up a schedule for people to assist you (Lotsa Helping Hands) to camps for your child, siblings and even you! We are confident that you will find information in this guide that will point you in the right direction so that you may find the answers to many of your questions. At the beginning of each section, you will find one or two helpful tips from parents, and then you will be directed to our website where you will find additional information and parent tips. It may feel overwhelming. Take it day by day. And use this resource guide to help you through those tough days when you just wish you could find an answer. We have culled the knowledge from hundreds of parents who have been in your shoes, and if there is one common thread through all of their comments, it is “Wow, I wish someone had told me that.”

If you discover a gap somewhere in our resources, please call Circle of Care and let us know! We want our guide to be as thorough as possible and we welcome your suggestions. Although you may feel alone and blindsided by this diagnosis, we are here to help in whatever way we can.

TALKING TO YOUR CHILD ABOUT CANCER

Talking about illness is hard. Talking about illness to a child is even harder. The most important piece of advice that all parents offered when asked about how they handled speaking to their child about cancer, was to keep it simple, and only address the issue at hand. Young children don’t need to know what is going to happen on a long-term basis. They DO need to know what to expect in the short-term. Another piece of advice was to “accept what is happening today and be as positive as possible.” You might be dealing with anything from shots, shunts and nausea to long periods of bed rest in a hospital. Stay positive. Children will follow your lead. If you let them know that this situation is NOT forever, they will accept that. You should, too.

KEEPING EVERYONE INFORMED/ACCEPTING HELP

We live in a connected age. Facebook, Snap Chat and Instagram are the obvious ways to keep people informed. Parents react in various ways to stressful situations. By keeping people informed with ONE site, rather than through several channels, everyone who is interested can know what is happening as often as you care to tell them. Caringbridge.com is a FREE website that can keep friends and family informed.
It is inevitable that you will need help. Whether it’s help getting your other children to and from school and activities, or help with meals or cleaning, you should accept the assistance of others. Lotsahelpinghands.com is another FREE website that lets you list things you need help with – babysitting, rides, meals, sitting with your child during treatments – and allows friends to sign up for tasks on a common calendar. Visit the Circle of Care website at www.thecircleofcare.org to find other tips from parents who found ways to find help when the situation was overwhelming.

TAKING CARE OF YOU

“Be kind to yourself. Get enough sleep, eat properly and exercise! You are experiencing one of the greatest trials a parent can experience. Pamper body and spirit.”

Although it may seem as if all attention should be on the sick child, we are here to tell you that NEVER works for long. It is well documented that you as a person must be as centered and calm as you can before you can help others. It’s OK to take time for yourself. Circle of Care was formed over 12 years ago by moms with children who had been diagnosed with cancer and met in a local support group. Finding the right group for you, whether a local group or one online, can literally change your life. We can think of no reason more compelling than this to find a support group! Our newly formed Circle of Care Parents Facebook Group is a place to ask and answer questions. Other ideas are to keep a journal with you (you will find one in your Bag of Love) or use the pages at the end of this resource guide. Sometimes simply jotting down how you are feeling can get you through a rough spot. Don’t be afraid to cry when you need to, or allow yourself to laugh. Letting your emotions out is healthy. There are many other tips on our website.

DEALING WITH THE UNEXPECTED

Every child responds differently to treatment, so planning ahead as much as possible allows you to feel better prepared for unexpected challenges. It helps to keep a suitcase packed for emergencies and routine hospitalizations. A favorite stuffed animal or blanket to comfort your child can ease the stress of a late night trip to the ER. Keep your medical journal up-to-date with all the medications your child has received and any side effects. This will avoid confusion in case of an emergency. It can also help to talk to other families whose child has had a similar diagnosis. Join our Closed Facebook Parents Group or call us to be connected to another family. “It’s a good idea to pack a bag for both you AND your child and keep it ready and in the car. If you have to go to the hospital unexpectedly, the last thing you want to do is pack.”

Two simple ways to make this difficult time just a little bit easier:

1) Be as prepared as you can be and then let the rest of it go.

2) Let “They are doing the best they can, and so am I” be your mantra.

We love this quote from a mom: “My husband and I are closer now and even happier than before this happened. I can’t believe that one myself.”
CancerCare, Inc.  
275 Seventh Avenue  
New York, NY 10001  
Toll-Free: (800) 813-HOPE (813-4673)  
Email: info@cancercare.org  
www.cancercare.org  
CancerCare is a national nonprofit organization with the mission of providing free professional help to people with all cancers through counseling, education, information, and referral, as well as directing financial assistance. The main CancerCare office for Connecticut is located at:  
111 East Avenue, Suite 207  
Norwalk, CT 06851  
Tel: (203) 854-9911  
Email:ctinfo@cancercare.org  

Cancer Patient Workbook:  
Everything You Need to Stay Organized and Informed.  
by Joanne Willis and Diane Blumenson  
ISBN 0789467828  
This interactive guide helps cancer patients stay organized with treatment tips, laymen’s explanations of medical terms and treatments, inspirational and humorous insights. Their worksheets help track doctor visits, medication usage, and organizations to contact.

CancerQuest  
2031 Rollins Research Building  
1510 Clifton Road, NE  
Atlanta, GA 30322  
Tel: (404) 727-0308  
Fax: (404) 727-2880  
Email: cancerquest@emory.edu  
www.cancerquest.org  
CancerQuest provides reliable, current, and comprehensive information about the biology and treatment of cancer, in order to help empower the patient, survivors, students, healthcare workers, and caretakers.

Care Pages  
345 Hudson Street, 16th Floor  
New York, NY 10014  
Tel: (646) 728-9500  
Fax: (646) 728-9503  
Email: info@everydayhealth.org  
www.carepages.com  
Care Pages are free patient blogs that help to inform friends and family about a patient’s situation and health status. The pages are used to share stories, pictures, and messages, and allow the patient to maintain a more supportive network. The Care Pages also provide articles, stories of inspiration and more resources.

CaringBridge  
1715 Yankee Doodle Road, Suite 301  
Eagan, MN 55121  
Tel: (651) 452-7940  
Fax: (651) 681-7115  
Question Line: (651) 789-2300  
www.caringbridge.org  
This nonprofit organization helps visitors create a website for keeping friends and family updated on a patient’s status. There is no charge for the use of this website. Creating a resource such as this can help alleviate phone bills and keep extended family up-to-date on their relative’s health.
Resources for Parents

Childhood Leukemia
Helping Your Child in the Hospital
Working with Your Doctor
A Parent’s Guide to Solid Tumor Cancers

All by Nancy Keene
Nancy Keene wrote the books above. She is a renowned writer in the field of childhood cancer. As the mother of a cancer survivor, she took her experience and melded it with over 100 other families’ stories to produce very informative guides for families of children with cancer.

Lotsa Helping Hands
118 North Peoria Street, Third Floor
Chicago, IL 60607
Email: info@lotsahelpinghands.com
www.lotsahelpinghands.com
When people say to a newly diagnosed family, “What can I do to help?” parents often don’t know how to answer. Lotsa Helping Hands does.
Lotsa Helping Hands is a free service that creates communities of friends, neighbors, relatives and others who rally around a family or person in need. Individuals can sign up for day to day tasks that the family may need help with, such as transportation or meals, and even automatically sends out email reminders. The site is also a platform for announcements and photos about the ill person, so everyone can stay up-to-date on his or her progress.

Nannies as Needed
243 Broad Street
Milford, CT 06460
Tel: (203) 874-4939 or (860) 992-3280
nanniesasneeded@aol.com
This company offers premier babysitting service, providing temporary, short term and emergency childcare services. They don’t take HUSKY insurance, but they offer somewhat affordable fees. They are flexible and can respond to last minute/same day requests. The cost for an annual membership is $75, which is a one-time fee. The fee per hour is $18.

Supersibs!
(Part of Alex’s Lemonade Stand)
660 N. First Bank Drive
Palatine, IL 60067
Tel: (847) 462-4742
Fax: (847) 984-9292
info@supersibs.org
www.alexslemonadestand.org/campaign/supersibs
Pediatric cancer affects everyone in the family. During the fight against cancer, siblings need to know that they, too, are special and important people, and that there is an organization that provides support for their unique needs. SuperSibs! Helps children redefine the “cancer sibling” experience by providing support services, and by helping to draw out the greater and important lessons that may benefit these children later in their lives.
RESOURCES FOR TEENS AND YOUNG ADULTS

Being diagnosed with cancer sucks. Yes, we know. You already know that. But perhaps you don’t know that you can get tips on style and make-up (Look Good…Feel Better) OR meet someone across the United States with your diagnosis and chat (Teens Living with Cancer). There are some things that can make your journey easier and, (dare we say it?) even interesting at times. No one can go through this without learning things and not all of them are bad. This section can help you navigate some of the things that will be coming down the road and offer a bit of diversion along the way. Please reach out to people. If you have something you think we need to add to this guide, do tell us; that way, the next teen won’t have to!

Bandaides and Blackboards
Joan Fleitas, Ed.D., R.N.
Associate Professor of Nursing,
Lehman College, Bronx, NY  10468
Email: Fleitas@OptOnline.net
www.lehman.cuny.edu/faculty/jfleitas/bandaides
Provided by Joan Fleitas, Associated Professor of Nursing at Lehman College, this website is designed to offer a child’s perspective on growing up with a serious medical condition. It supports kids, teenagers and adults dealing with their medical and emotional issues and when returning to school. Visitors are advised on dealing with teasing, what to expect in the classroom and how to get back to normal life.

Blood Count Information for Kids with Cancer
www.pedspain.nursing.uiowa.edu/bcounts
The University of Iowa created this website to better explain blood counts to kids. It uses cartoon characters to do so in a fun, animated way.

Cancer Care Young Adult Services
www.cancercare.org/tagged/young_adults
CancerCare provides free, professional support services for young adults affected by cancer, as well as cancer information and additional resources. Services include: counseling, support groups and educational telephone and online workshops.

Cancer Kids
www.CancerKids.org
Cancer Kids provides links to the personal websites of children who are battling cancer. These links can be found in the “Stories” section of their website. On the organization’s “Wall of Memory,” the children whose personal stories do not end with “remission” or “cure” are honored.

Fertile Action
(877) 276-5951
fertileaction.org
Fertile Action is a cancer charity working to ensure fertile women impacted by the disease can become mothers. They provide empowering education to patients and physicians, and offer fertility scholarships on a sliding-scale basis.
Livestrong Fertility
livestrong.org
If you want to become a parent after cancer, we have the tools and resources to help. LIVESTRONG Fertility is dedicated to providing educational information and access to resources that support cancer patients and survivors whose cancer and its treatment present risks to their fertility. Through the LIVESTRONG Fertility Discount Program, cancer survivors can access discounted rates on fertility preservation services.

Look Good…Feel Better
Tel: (800) 395-LOOK
www.lookgoodfeelbetter.org/2bme
Look Good…Feel Better is a free public service program that provides useful information and tips for men, women, and teens dealing with their physical appearance, altered by cancer treatment. The program acknowledges social stress resulting from this change in appearance.

Planet Cancer
Email: ContactUs@PlanetCancer.org
livestrong.org/we-can-help/young-adults
This organization’s website is directed specifically toward young adults dealing with cancer. It includes real-world advice, discussion boards, and recommendations for books, music and films.

Stupid Cancer
40 Worth Street, Suite 808
New York, NY 10013
Tel: (877) 735-4673
Email: contact@stupidcancer.org
www.stupidcancer.org
Stupid Cancer, is the largest charity that comprehensively addresses young adult cancer through advocacy, research, support, outreach, awareness, mobile health and social media. Their innovative, award-winning and evidence-based programs and services serve as a global bullhorn to propel the young adult cancer movement forward.

Teenagers Face to Face with Cancer
by Karen Gravelle and Bertram A. John
In this book, 16 teenagers describe their experiences with cancer and how they deal with family, friends, and school while coping with their illnesses. These teenagers describe how they felt when they were diagnosed and how they felt with various forms of treatment, ranging from chemotherapy to limb amputation. Each teenager shares how he or she feels about plans for the future, and coming to terms with the fact that they might die. In the end, they feel that their battle with cancer has left them stronger in various ways.

Teens Living with Cancer
1000 Elmwood Avenue, Suite 300
Rochester, NY 14620
Tel: (585) 563-6221
Email: info@teenslivingwithcancer.org
This website provides social support for teens undergoing cancer treatment. It addresses issues, like body image, nutrition, dealing with others, going back to school, and struggling to live a normal teenage life. This site connects teens, providing a network of cancer patients who can discuss and resolve their cancer-related issues.
RESOURCES FOR TEENS AND YOUNG ADULTS

The C Word: Teenagers and Their Families Living with Cancer
By Elena Dorfman
NewSage Press, 1993
ISBN: 093916521X
Five teens with cancer, their families, and their best friends are interviewed. They share how the disease affected their lives. Both fears and realities concerning relationships and chemotherapy are addressed with frankness. Patients and their loved ones should be comforted by the similarities of shared experiences. Students researching for reports, as well as general readers, are provided with opportunities to more deeply understand how a life is altered by serious disease.

The SAMFund
89 South Street, Suite LL02
Boston, MA 02111
Tel: (617) 938-3484
http://www.thesamfund.org/
This fund provides support for young adult cancer survivors in the United States as they recover from the financial impact of cancer treatment. Through direct financial assistance and free online support and education, the SAMFund helps young adults move forward toward their personal, professional, and academic goals.

The Ulman Cancer Fund for Young Adults
Howard County
6770 Oak Hall Lane, Unit 116
Columbia, MD 21045
UCF Headquarters
1215 East Fort Avenue, Suite 104
Baltimore, MD 21230
Toll-Free: (888) 393-FUND (393-3863)
Tel: (410) 964-0202
Fax: (888) 964-0402
Email: info@UlmanFund.org
www.UlmanFund.org
The Ulman Cancer Fund for Young Adults provides free support programs, education, and other resources. By using these free services, they hope young adults will benefit, as well as promote awareness and prevention of cancer.

VIDEOS
Sometimes a picture is worth a thousand words. The videos suggested here are created using past patients and some actors discussing their own journeys as well as fictional accounts of the many ups and downs of treatment and returning to school.

Back-to-School for Teens
The Starlight Children’s Foundation
Tel: (800) 315-2580
www.starlight.org
When patients go back to school after a long absence, they can be scared, nervous, and even excited. And they’re not alone. This documentary shares teens’ stories and their advice for returning to school.
I’m Still Me!
The Leukemia & Lymphoma Society
Tel: (800) 955-4572
www.lls.org
This video is for children with cancer and their classmates. It includes a guide for medical personnel and teachers. The overarching goal of I’m Still Me! is to help children with leukemia and other cancers successfully reintegrate into the classroom after their diagnosis and during their treatment.

My Hair’s Falling Out... Am I Still Pretty?
ASIN: 0965083209
This childhood cancer education video is a fictional, solo performance, which tells the story of a young girl who is diagnosed with leukemia, and undergoes hospitalization and chemotherapy. She then returns to school when she is in remission. Although the story deals with difficult issues, it remains upbeat, and clearly portrays accurate information about hospitals and cancer, while remaining suitable for school-age children.

Plastic Eggs or Something!?: Cracking Hospital Life
The Starlight Children’s Foundation
Tel: (800) 315-2580
www.starlight.org
Teenagers dealing with a serious illness often have a lot of questions. This video gives the inside scoop on what other kids have experienced. In this video, teens get the straight story on everything from communicating with hospital staff to making themselves as comfortable as possible in the hospital environment. (Ages 10-18)
RESOURCES FOR KIDS

Hi! Circle of Care is here to tell you some things that you can do during treatments to help you feel a little better. When you checked in, you got a bag that had some things that you might want to keep with you. Like some fuzzy socks, a soft blanket, maybe even a pillowcase, a little book and some colored pencils or crayons and of course soap, toothpaste and a toothbrush. And THIS book can tell you about online games, community events or camps that have other kids like you go to, and ways to pass the time during treatments. Plus, even how to get a pony ride!

American Brain Tumor Kids Page
Tel: (800) 866-2282
www.abta.org/adolescent-pediatric/
Crosslist: Resources for Parents
Created by the American Brain Tumor Association, this website is designed for kids to use. They can learn about tumors, share their thoughts, take part in fun activities or find out how to volunteer. In the “Learning” section they can download a PDF file of the book, “Alex’s Journey,” about a boy who is diagnosed with a brain tumor. There is also a free award-winning video of “Alex’s Journey,” which can be ordered from the website.

Bandaides and Blackboards
Joan Fleitas, Ed.D., R.N.
Associate Professor of Nursing,
Lehman College, Bronx, NY 10468
Email: Fleitas@Optonline.net
www.lehman.cuny.edu/faculty/jfleitas/bandaides
Provided by Joan Fleitas, Associate Professor of Nursing at Lehman College, this website is designed to offer a child’s perspective on growing up with a serious medical condition. It supports kids, teenagers and adults dealing with their medical and emotional issues and when returning to school. Visitors are advised on dealing with teasing, what to expect in the classroom and how to get back to normal life.

Blood Count Information for Kids with Cancer
www.pedspain.nursing.uiowa.edu/bcounts
The University of Iowa created this website to better explain blood counts to kids. It uses cartoon characters to do so in a fun, animated way.

Brave Kids
BraveKids c/o UCP
1825 K Street NW, Suite 600
Washington, DC 20006
Toll Free: (800) 872-5827
www.info@ucp.org
Brave Kids’ mission is to help children with chronic, life-threatening illnesses or disabilities. There is a special section of the website called “Club Brave Kids,” designed just for children dealing with cancer. It includes message boards for cancer patients and their siblings, weekly polls, news about other Brave Kids, medical info just for kids and teens, and games.

Chemo Angels
P.O. Box 1971
Julian, CA 92036
www.chemoangels.net
Having cancer can be very isolating and
even lonely, but Chemo Angels are there to provide encouragement for patients. Letters and small gifts in the mail lift a patient’s spirits during treatment, and give them something to look forward to each day.

**Chemo Duck**  
**Gabe’s My Heart, Inc.**  
5016 Spedale Court, Suite 129  
Spring Hill, TN 37174  
Tel: (615) 830-0126  
*Email: info@chemoduck.org*  
[www.chemoduck.org](http://www.chemoduck.org)  
This organization has a program that offers a cuddly, friendly stuffed animal duck that can be used to teach children about cancer and hospital treatments. The duck comes with a book for parents on how best to use the duck, as well as an activity book for kids.

**Giant Kids**  
P.O. Box 499  
Mahopac, NY 10541  
*Email: semenetz@giantkids.org*  
[www.giantkids.org](http://www.giantkids.org)  
Giant Kids provides awards for the brave kids who battle childhood cancer every day. They also have an annual Summer Fun Festival for kids of all ages, with animals, food, and activities for the whole family.

**Personal Ponies**  
Cindy Pullen, National Director  
Tel: (678) 773-6826  
*Email: cindy.pullen@gmail.com*  
[www.personalponies.org](http://www.personalponies.org)  
Dedicated to the belief that the life of a child with disabilities can be immeasurably enriched by having a tiny pony to love and care for, Personal Ponies provides Shetland ponies to families of disabled, special needs, and terminally ill children free of charge.

**The Sunshine Kids Foundation**  
**(CT Chapter)**  
2 Hartford Square West  
146 Wyllys Street, Suite 2-210  
Hartford, CT 06106  
Tel: (860) 904-5493  
Fax: (860) 904-5268  
*Email: info@sunshinekids.org*  
[www.sunshinekids.org](http://www.sunshinekids.org)  
Sunshine Kids, a national organization with a CT chapter, provides free events for children and families with cancer. Some events include a princess tea party, a Sesame Street Parade, snow tubing, and more.
The following publications can be found at libraries, bookstores or online. Most of these publications are available new or used at amazon.com, barnesandnoble.com, or chapter.indigo.ca. ISBN identification codes are provided for publications that have them to make online searching easier. When using an ISBN code, no other search criteria is needed. Additional book sources for children with cancer are www.cancerkids.com and www.curesearch.org.

Armfuls of Time: The Psychological Experience of the Child with a Life-Threatening Illness
by Barbara M. Sourkes, PhD.
University of Pittsburgh Press, 1996
ISBN 0822955652
This book reviews the general psychological effects of cancer and explains the therapeutic process.

Chemo, Craziness & Comfort: My Book About Childhood Cancer
By Nancy Keene and Trevor Romain
Candlelighters Childhood Cancer Foundation, 2002
ISBN: 0972404309
www.Candlelighters.org
This resource book provides practical advice for children diagnosed with cancer. Funny illustrations and easy text help the child (and parents) make sense of cancer. Themes address medical tests, hospitalization, and treatment, including chemotherapy, radiation, stem cell transplantation, and their side effects. It offers tools and journal space to help children deal with the physical and emotional impacts of the cancer and the treatment. (Ages 6-12)

Chemo Girl: Saving the World One Treatment at a Time
by Christina Richmond
Jones & Bartlett, 1997
ISBN: 0763703141
This fictional tale of a superhero, with cartoon-like illustrations, was written to help children cope with chemotherapy treatments. It presents a positive, non-threatening side of chemotherapy and a sense of hope. (Ages 4-8)

Fuzzy and Frankie
by Susan Murray
Goetz Printing Co.
ISBN: 91-60256
Department of Hematology/Oncology
Children’s National Medical Center
111 Michigan Avenue, NW
Washington, DC 20010-2970
Tel: (202) 745-2140
This story is told from the unique perspective of a teddy bear, Fuzzy, belonging to a sick boy named Frankie. Fuzzy is going to the hospital with Frankie, when Fuzzy realizes from the grim faces around him that something is very wrong with his friend. Frankie must undergo a series of tests, and Fuzzy wishes that he could do something to make Frankie feel better. Frankie, however, becomes weaker, and he misses his friends. When Frankie sees his parents crying, Fuzzy explains why his parents are worried about him. Soon, Frankie gets well, and he is able to go home. The book is also full of beautiful illustrations. (Ages 8-11)
Going to the Hospital
By Fred Rogers
G.P. Putnam’s Sons, 1997
PBS’s “Mr. Rogers” introduces children to hospitals in this book. (Ages 3-8)

Henry and the White Wolf
By Tyler and Tim Karu
Workman Publishing, 2000
ISBN: 0761121358
Teenage brother and sister Tim and Tyler wrote this allegory about a sick hedgehog that is healed by the feared white wolf. Geared to help children cope with the physical discomforts and fears of prolonged medical treatments, this book can also be useful to children whose parents and friends are ill. A stone, which is used as a symbol in the story, comes with the book for children to grip during hard times. (Ages 4-8)

Home in Time for My Birthday
by Lynn Ducoff Belkin
A book about a six-year-old girl with a brain tumor, written by a cancer survivor. It explains her treatments in a way that kids can understand, and has fun illustrations.

My Book for Kids with Cancer: A Child’s Autobiography of Hope
By Jason Gaes
Melius & Peterson Publishing Corp, 1987
524 Citizens Building
Aberdeen, SD 57401
In his autobiography, Jason Gaes encourages kids to have a positive attitude, and stresses the fact that not all kids with cancer die. He gives advice on how to get through injections, nightmares, treatments, and side effects of all sorts. He describes how his uncle discovered Jason’s cancer and the entire process of the cancer treatment. He gives his opinions on the different types of treatment and medicines that he took over the duration of his cancer. He also tells kids about what he thinks are the positive side to cancer and having no hair. As a survivor of cancer, Jason’s perspective is genuine. The book is appropriate for children suffering from cancer who are afraid and have many difficult questions to ask and to answer. While the book does touch on religion, it also sends a general message accessible to everyone. (Ages 7-14)

Oncology Stupology… I Want to Go Home!
by Marilyn Hershey
This funny, brightly colored book shows the true emotional frustration that children can experience while undergoing cancer treatments. Appropriate for children of all ages. Fun illustrations make the material even more accessible for children.

Stevie’s New Blood
By Kathryn Ulberg Lilleby
Illustrator: Chad Chronick
Oncology Nursing Press, 2000
ISBN: 1890504173
www.ONS.org/publications/books
Stevie is undergoing a bone marrow transplant in the hopes that it will cure his leukemia. Anna, his sister and donor, will
learn what it is like to give her bone marrow. The story explains bone marrow and stem cell transplantation from a child’s perspective. The book is adaptable to different age groups, to children whose parents are undergoing a transplant, or to the friend of a child undergoing one. (Ages 4-8)

**The Amazing Hannah: Look at Everything I Can Do!**
By Amy Klett
Friends of Hannah Klett and Growing Hope, 2001
[www.acco.org](http://www.acco.org)
This story was created for a preschooler with leukemia to help her adapt to doctor visits and treatments. Using the word “tubies” to describe the central line, its function and care, this book can be read and shown to very young children. (Ages 1-6)

**The Problem with Hair: A Story for Children Learning About Cancer**
by Karen Sue Foss
Centering Corporation, 1996
ISBN 1561230995
This is an account of a group of friends, and how they must cope with one of them undergoing cancer treatment and hair loss.

**They Never Want to Tell You: Children Talk About Cancer**
by David J. Bearison,
Harvard University Press, 1991
ISBN 0674883705
Bearison, a developmental psychologist and psychotherapist, is aware of the psychological impact of cancer on children, particularly as the battle with cancer continues and complex treatments intensify. The concern eventually becomes about the emotional well-being of children, and not just their physical improvement. This book transcends the negative metaphors and clichés of life-threatening disease to give voice to the culture of cancer, and to the behavior and attitudes of patients, medical professionals, family, and friends functioning within that culture. In the course of these stories, the children reveal not only their will to survive and their extraordinary capacity to understand themselves under their condition, but also their altruistic desire to share that understanding with other children and adults with cancer. “They Never Want to Tell You” is rich, rewarding reading for cancer patients, their families, and healthcare professionals alike.

**What’s My Line**
by Jennifer Gretzema
This book features Chris, a kid who has a secret: He has a central line. Kids interact with three-dimensional Chris, and learn about what a central line is, what it does, how it works, and how to care for it.

**When You Have An Operation On Your Head or Back**
by Henrietta Egleston Hospital Nursing Staff
Egleston Hospital
1405 Clifton Road, NE
Atlanta, GA 30322
This is a good activity book for children about to undergo an operation on their head and back. It goes step-by-step through everything that your child may experience in a hospital, and provides pictures and pages for your child to draw on and fill in the blanks. (Ages 6-16)

**Why am I ImPORTant**

by Jennifer Gretzema

This book also features Chris, a kid who has a port. By interacting with a pop-up Chris, kids learn what a port is, what it does, how it works, and how to care for it.
While every part of you might be inclined to focus all attention on your sick child, it is important to spend time with your other healthy children, too. Family dynamics shift dramatically when dealing with an illness. Here are some helpful thoughts about siblings.

Be honest. “We were totally honest with all of our children about what was happening. We learned that people in the community will tell your children everything even if you don’t, so they need to hear it from you first!”

Reassure them. Tell them they didn’t do or say anything that caused their sibling’s cancer. Assure them that childhood cancer isn’t contagious and it is very rare. “One of the most difficult things I did following the diagnosis of my child with cancer was to leave his side to go home and be with his sisters. They REALLY needed it.”

Make time for family visits to the hospital. Let siblings visit the hospital. Don’t worry that the hospital will be too traumatic. Imagining what happens there is usually scarier than seeing a sick brother or sister.

Encourage them to express their feelings. “To help our girls (ages 6 and 8) at the time of our son’s diagnosis, we started a new game after dinner where the girl’s dolls and stuffed animals put on a show for us to tell us how they were feeling about his being sick. Especially about how much time and attention he needed. The girls would comfort their dolls by telling them what we had told them – he would get better, cancer was not contagious, and that he isn’t going to die. At first, they were tenuous and timid but as more and more dolls came forward to share their feelings we all learned something from each other. It made us all feel better and safer. Sometimes the stuffed animals would break into song – so we had some good laughs, as well.”

Talk about your family situation with teachers. Teachers can be a tremendous support to children during the day and can act as your eyes away from home. Give them needed information and you will find them ready to help.

Ask your hospital child life specialist for help. There are many sibling programs and camps both in and out of the hospital. Go to our website for more parent tips.
 RESOURCES FOR SIBLINGS

Circle the Sun! - a camp for siblings  
Email: info@camprisingsun.com  
Email: info@thecircleofcare.org  
In partnership with Camp Rising Sun, Circle of Care offers a sibling camp in Colebrook, CT the last week in August. This camp is free for siblings ages 8-14 whose sibling is attending Camp Rising Sun the same week.

Supersibs! 
(Part of Alex’s Lemonade Stand)  
660 N. First Bank Drive  
Palatine, IL  60067  
Tel: (847) 462-4742  
Fax: (847) 984-9292  
info@supersibs.org  
www.alexslemonadestand.org/campaign/supersibs

Pediatric cancer affects everyone in the family. During the fight against cancer, siblings need to know that they, too, are special and important people, and that there is an organization that provides support for their unique needs. SuperSibs! helps children redefine the “cancer sibling” experience by providing support services, and by helping to draw out the greater and important lessons that may benefit these children later in their lives.

BOOKS

Hi, My Name is Jack
by Christina Beall-Sullivan  
www.himynameisjack.com

This book for children addresses the issues encountered by the healthy siblings of chronically ill, disabled or dying children. These issues include loneliness, anger, worry, jealousy, and guilt. This book does not specify the illness being experienced by the ill child, allowing it to focus on the healthy siblings and their feelings.

Oliver’s Story:  
For “Sibs” of Kids with Cancer  
by Michael Dodd  
Published by Candlelighters Childhood Cancer Foundation, 2004  
ISBN: 0972404341  
www.candlelighters.org/bookskids.stm

This story, written through the eyes of six-year-old Oliver, focuses on the many questions siblings have when their brother or sister is diagnosed with cancer, and offers constructive ways on how they can provide support. Get a free copy through the Candlelighters National office. (Ages 4-10)  
Refer to the “Pediatric Healthcare and Cancer Organizations” section for more on this organization, and its contact information.

What About Me? When Brothers or Sisters Get Sick  
by Alan Peterkin  
Magination Press, 1992  
ISBN 0945354495

Finding out a brother or sister has cancer is very difficult. This booklet describes how other teens dealt with this tough time. It shows ways teens can help themselves and their families, provides information about cancer treatments, ways to learn how to cope, as well as where to go for more support. (Ages 4-8)
Why Charlie Brown, Why?
by Charles Schultz
Tel: (800) 955-4572
This story is about a child whose friend has cancer. It comes highly recommended for younger school-age children. It is an excellent book for the child’s schoolmates and other groups to become familiar with before your child returns to regular activities. It can be found through the Candlelighters Childhood Cancer Foundation, or the Leukemia & Lymphoma Society.
SIDES EFFECTS

Treatment isn’t easy – There are many side effects and, just as every child is unique, their reactions to treatment are, too. Many parents have found it helpful to keep a journal. “After the first few months, we learned our son’s rhythm with the chemo drugs and being able to anticipate his low counts, nausea, headaches and fatigue made them much easier to manage. Keeping a journal really helped.”

Other side effects that you might not expect and which may happen are: weight gain, nausea (keep a roll of paper towels and a bucket in the car), increased or loss of appetite, increased temper (due to steroids), hair loss (more on this later). On our website, you will find other parent tips – from eating sweets the day before chemo to timing of temper tantrums and raging appetites. Learning from other parents can help you to be more prepared for treatments.

GIVING MEDICINE

During treatment, your children will need to take A LOT of medicine. Babies, toddlers, even some young adults have never had to swallow pills, and getting the medicine in them leads to some pretty creative maneuvers by parents. Everything from applesauce to brownies to berries has been used to get children to swallow their meds. It is important to remember to check for reactions to drugs and what you are putting them in, but mostly anything goes if it is sweet and masks the taste. This is a large section on our website but here are a few ideas from past parents.

- “I give my 5 year old son ice and have him suck on it for a bit before giving him his medicine. It helps numb his taste buds so the medicine goes down smoothly.”
- “We crush all of the meds and put them in super sweet liquids.”
- “They make gel caps that have no taste so we would crush up the prednisone and put them in there.”
- “Highly recommend Jell-O jiggles! Make Jell-O cut into small cubes, make a slit in the top and insert gel cap.”
- “We use Motts apple berry sauce.”
- “One of the oncology nurses dissolved the pills in liquid and then sucked it up in a syringe and squirted it in the mouth of my child. We followed it with some M&M’s and that has worked for 6 months!”

Please DO go to our website, where we have many more suggestions for you.
NUTRITION

We all know that eating the right foods can have many benefits, from our physical size to our mental health. Now, more than ever, nutrition is top priority. Unfortunately, the drugs that will be working to fight your child’s illness can often make them feel like not eating ANYTHING- let alone things that are good for them. This section will give you pointers on what sorts of foods might be more palatable and how you can combat nausea, dry mouth and numerous other issues. Everyone needs new recipes, and there are several complete cookbooks you can download. If you find something that works especially well for you, please share it with us and we can add it to our nutrition resources section below.

BOOKS

Betty Crocker’s Living with Cancer Cookbook: Easy Recipes and Tips Through Treatment and Beyond
By Kris Ghosh, Linda Carson, and Elyse Cohen
Healing Meals Community Project
P.O. Box 501
Simsbury, CT 06070
Tel: (860) 264-5864
www.healingmealsproject.org
This nonprofit prepares and delivers organic meals for families in health crises while supporting young chefs with leadership skills, job readiness skills, nutrition and wellness education, and the joy of supporting the community.

Eating Hints for Cancer Treatment: Before, During, and After
This book, provided by the National Cancer Institute, is designed for patients, families, and caregivers. It addresses specific dietary needs during treatment and attempts to provide coping strategies for side effects that may have an impact on eating.
To purchase or learn more about this book, call (800) 422-6237 or visit www.cancer.gov/cancerinfo/eatinghints.

Nutritional Needs For Kids With Cancer
For good information on how nutrition is important and what to eat during cancer.

The Cancer Survival Cookbook: 200 Quick & Easy Recipes with Helpful Eating Hints
By Donna L. Weihofen
This book has recipes for patients going through chemotherapy and radiation treatments. The recipes are excellent and easy. The nutritional information for each recipe is given, as well as hints on how to increase your calorie intake when needed.
The I-Can’t-Chew Cookbook: Delicious Soft Diet Recipes for People with Chewing, Swallowing, and Dry Mouth Disorders
By Randy J. Wilson
Online e-book also available.

What to Eat If You Have Cancer: Healing Foods That Boost Your Immune System
By Daniella Chace and Maureen Keane
This book, written by two licensed nutritionists, discusses food that may reduce toxins left by chemotherapy, and that may accelerate the body’s recovery process. It covers many important topics that need to be understood when making dietary changes, such as supplement “dos and don’ts” and the benefits of natural foods.

LIVING WITH LOW BLOOD COUNTS
Your child will be immune-suppressed at many times during treatment. Basic hand washing and avoiding crowds are your best first line of defense. Nature is your friend and good for all of you. Get outside and go for walks or, if you are both exhausted, simply drive to a nearby pond or park and sit on a bench for a while. Mother Nature supplies an endless variety of birds, wildlife, plants and beetles. Just a change of scenery is often good.
“After many weeks at home, we found some fun things to do to pass the time. Sometimes we would have the whole family camp out in the living room, we had picnics on the porch. She learned to cook, plant seeds, and do crafts.”

“Sometimes on Sundays we would go to my husband’s office when no one was there just for a change of scenery.”

“Never feel embarrassed about the measures you have to take to keep your child healthy. Some friends may have been offended when I left a play date because their child had suspicious drainage from their nose, but I would always wait a day (until I wasn’t so upset!) and call and explain – AGAIN – that our daughter could not be exposed to common childhood illness if at all possible. Your goal is to help your child and sometimes that means taking the time to educate the other parents whose children are important to your child.”
ABOUT HAIR LOSS/WIGS & ACCESSORIES

Many have seen the dramatic depictions of losing your hair during cancer in movies and television shows... Hair loss from chemo and radiation can be one of the most difficult side effects for children, especially teens. Preparing yourself and your child can help to make the transition a bit easier. It is important to keep in mind that it will grow back. This section shows you where to look for things you possibly never even knew existed. A good wig? One that doesn’t scream, “I’m wearing a wig!” to every passerby, definitely does exist and, for some, makes life easier. It is important to remember that the hair will grow back. Don’t be afraid to address the obvious. Talk about the loss of hair and why it is happening. Let your child make the decision to get a wig or not.

“At first our daughter was very self-conscious about losing her hair so we got her a wig. It looked very nice on her but after a few occasions she decided she was happier without it. Having the wig was important because SHE got to decide whether she would have hair or not. That meant a lot to her.”

“My son lost all but about 30 strands of hair; he brushed it every day and was very happy to have it.”

The important thing here is that the child be allowed to react and feel whatever he or she wants. Try to be open about the process with everyone. There is nothing worse than friends stopping by for a visit and being unprepared for the new look your child is sporting.

“My son said that once he lost his hair, no one in the elevator or walking through the halls of the hospital would look at him. I learned to always look at the children, say hello and treat them as normally as possible.”

Others find colorful scarves, bandanas or the very kid-friendly baseball hat to be a better option. This section points you in the right direction for both decisions.

Lastly, we can only hope to have this parent’s situation:

“When my 10-year-old son returned to school, all of his friends had shaved their heads so he wouldn’t feel different. That was an amazing day.”

Hip Hats with Hair
4707 North Nebraska Avenue
Tampa, FL 33603
Tel/Fax: (877) 447-4287
Email: info@hatswithhair.com
www.hatswithhair.com
Hip Hats with Hair is a more comfortable, versatile, and cost effective way to deal with hair loss. Only soft, stretchy fabric touches your head. Hats can even be made with your own hair.

Hot ILids
Email: HotILids@yahoo.com
www.HotILids.com
This website has hundreds of styles of hats, and more in their Kids Lids section. HotILids.com also offers personalized hats and hat-making kits. They work well as party favors, or as an activity during parties. It’s a fun, creative way to cope with losing your hair. The kits contain child-safe arts and crafts supplies for creating one hat. The assorted kits contain fabric
markers, ribbons, patches, glue, kid’s scissors, and one hat of your choice. For every 20 hats sold, one hat is donated to a child through the American Cancer Society.

**Locks of Love**
234 Southern Boulevard
West Palm Beach, FL 33405
Tel: (561) 833-7332
Toll-Free: (888) 896-1588
Fax: (561) 833-7962
*Email: info@locksoflove.org*
www.locksoflove.org
Locks of Love provides high-quality hair pieces to financially disadvantaged children (ages 0-18) suffering from long-term medical hair loss as a result of any diagnosis.

**Wigs for Kids**
24231 Center Ridge Road
Westlake, OH 44145
Tel: (440) 333-4433
Fax: (440) 835-1084
*Email: info@WigsForKids.org*
www.WigsForKids.org
Wigs for Kids is a nonprofit organization that provides hair replacement solutions for children affected by medical hair loss.
GOING BACK TO SCHOOL

Negotiating the difficulties of having a child out of school for extended periods of time are considerable. The Department of Education has guidelines for advocating for your child to make sure they don’t fall behind. Sometimes getting back to the normal day-to-day habits of school seem overwhelming. Here are some practical tips/resources for what you might want to consider before the actual day that your child returns to school.

Before returning to school, meet with the school administration, your child’s teachers and the school nurse. Explain your child’s diagnosis and treatment plan in detail. Don’t be afraid to ask for accommodations for your child’s needs, including, but not limited to, unexpected absences, school policies about homework completion, in-home tutoring, permission or special plans to go to nurse or restroom when necessary, wearing hats or head scarves, etc. You know your child best. Some children thrive on attention and want to share every detail of their ordeal, while some want no attention at all. Talk to them and lay out the different scenarios. Be aware that many children (and adults!) don’t know how to deal with sickness. Getting back into the swing of school can be challenging, but keeping open lines of communication between you and your school’s administration is KEY.

“I drafted a lengthy letter explaining his illness, treatment, strengths, weaknesses, as well as the things I wanted the school to do. I tried to take on as much responsibility for those requests as possible. I found that by making my concerns clear and trying to assist the school in doing the things I wanted, I was met with great cooperation and my son’s re-entry went smoothly.”

Cells Alive
Contact: Jim Sullivan
Email: cellsalive@gmail.com
www.cellsalive.com
This website is helpful for explaining cells to older elementary and teenage students. There is a colorful slide presentation with images that may be used in the classroom. The website addresses the cellular aspects of cancer.

Connecticut State Department of Education
165 Capitol Avenue
Hartford, CT 06106
Tel: (860) 713-6543
www.sde.ct.gov

As a result of their diagnosis, a child may qualify for an IEP, IDEA or 504 plan. Refer to this website to download the IEP manual to learn more about how to advocate for a child within his or her school system.

The Learning Foundation of Fairfield County
1109 Brookside Drive
Fairfield, CT 06824
Tel: (203) 520-2070
Email: susan@learningfoundation.net
www.learningfoundation.net
Susan Bemus provides tutoring and educational consulting to families of children with learning issues. Her services range from
evaluation, testing, IEP and 504 plan review and development, tutoring, and social skills workshops. Her background as an educator and work in special education, as well as her personal experience with pediatric cancer, make her an invaluable resource for families of children facing back-to-school issues. She can assist families who wish to work with their child’s school to develop a good working home-school relationship, from which the patient will benefit.

*Trish Greene Back-to-School Program for Children with Cancer*

www.lls.org/events/the-trish-greene-back-to-school-program-for-children-with-cancer

This program is sponsored by The Leukemia & Lymphoma Society, and was developed to foster communication between healthcare professionals, parents, patients, and school personnel in preparation for the return to normal activities, including attending school.

**BOOKS**

*Educating the Child with Cancer, a Guide for Parents and Teachers*

Tel: (800) 366-2223

www.aceo.org

This is an essential resource for families who have faced a childhood cancer diagnosis. Written by top researchers in the field, and balanced with parent’s personal experiences, this resource covers learning issues from infancy through adulthood. One free copy is available to families of children with cancer and one for the child’s teacher.

*James Bounces Back*

by Debra Giugliano Trezza
Illustrator: Daisy Doahnos

James Bounces Back is an educational book for boys diagnosed with cancer and their classmates. It may be ordered through the School Re-entry Program at Stony Brook University Hospital. To contact this program, call (631) 444-7720.

*Negotiating the Special Education Maze: A Guide for Parents and Teachers*

by Winifred Anderson, Stephen Chitwood, and Deirdre Hayden
Woodbine House, 1997
ISBN: 0933149727

Now in its third edition, this book is one of the best tools available to parents and teachers for developing an effective education program for their child or student. Every step is explained, from eligibility and evaluation to the Individualized Education Program and beyond. This edition covers changes in disability laws, including the Americans with Disabilities Act and Individuals with Disabilities Education Act. It reviews early intervention services for children from birth to age three; and, for those who have young adults with special needs, it also covers transitioning out of school.
UNIQUE OPPORTUNITIES

Part of many children’s lives is a camp experience. Perhaps the most well known camp for children with illnesses is Hole in the Wall, founded by Paul Newman; but there are many others. Your child might now have special needs, but there are still many wonderful options for both a child dealing with illness, and even for that child’s siblings. Some have smaller fees and many are free to children with cancer. You are going through an extremely stressful time; one of these camps can give the whole family a short time off to refuel and relax.

In addition to camps, there are other organizations that can make a child’s dream come true. Who doesn’t love to see a child get their wish fulfilled? From meeting astronauts and sports stars to trips to Disneyland and beyond, all sorts of fantasies have been fulfilled by these organizations. We love to see children smile, jump up and down with glee and hoot with delight. These groups can help make that happen for you.

CAMPS

**Camp Mak-a-Dream**
P.O. Box 1450
Missoula, MT 59806
Tel: (406) 549-5987
Fax: (406) 549-5933
Email: Camp@Montana.com
www.CampDream.org
Camp Mak-a-Dream is operated by Children’s Oncology Camp Foundation and is a free, medically supervised camp for cancer patients (ages 6-25) and their siblings (ages 6-17). Their facilities include modern cabins, fully accessible pool, art studio, health center, archery range, and more.

**Camp Rising Sun**
P.O. Box 472
Branford, CT 06405
Tel: (203) 481-7277
Fax: (203) 654-7886
Email: info@camprisingsun.com
www.camprisingsun.com
This camp was created for children diagnosed with cancer. Children attend the camp for free, and all staff members are dedicated volunteers who show compassion and concern for the child’s well-being and enjoyment of life. Located on the shores of Triangle Lake in the Northwestern hills of Connecticut, Camp Jewell YMCA offers modern, heated cabins with fireplaces, carpeting and lounges, waterfront with sandy beaches, playing fields, basketball and tennis courts, a ropes course, an infirmary, well-lit amphitheater for performances, dances and ceremonies, an arts and crafts studio, and a working farm. Children participate at their own level and take part in all activities under careful, qualified supervision. The camp has a pediatric oncologist and three nurses on campus on duty 24 hours a day, 7 days a week.

**Camp Simcha**
151 West 30th Street, Third Floor
New York, NY 10001
Tel: (877) CHAI-LIFE or (212) 699-6661
Email: info@campsimcha.org
www.campsimcha.org
Since 1987, Camp Simcha has been a pioneer in kosher camps for children with cancer and other medically catastrophic illnesses. The grounds are located in Glen Spey, NY, on the Jack and Moishe Horn Campus, which spans 125 acres. The camp runs two-week sessions for children and young adults (ages 5-20) who come from throughout North America, Europe, and Israel who have encountered serious illness.

**Camp Sunshine**
35 Acadia Road  
Casco, ME 04015  
Tel: (207) 655-3800  
Fax: (207) 655-3825  
Email: info@campsunshine.org  
www.campsunshine.org  
This is the only camp in the nation whose mission is to address the impact of a life-threatening illness on every member of the immediate family. Families attend one of the week-long camp sessions, which includes meals, on-site medical services, counseling services, and recreational activities. While at camp, each family stays in a private suite, and is sponsored by an individual, civic group, corporation, or foundation. This enables them to attend camp for free.

**Children’s Oncology Camping Association International (COCA-I)**
P.O. Box 40081  
Augusta, GA 30909  
Tel: (404) 661-5753  
Email: don.golden@cocai.org  
www.cocai.org  
COCA-I is an international assembly of people and more than 65 camps providing programs for children with cancer. Camps are located in the USA, Canada, Australia, New Zealand, and Europe.

**Circle the Sun! - a camp for siblings**  
Email: info@camprisingsun.com  
Email: info@thecircleofcare.org  
In partnership with Camp Rising Sun, Circle of Care offers a concurrent sibling camp in Colebrook, CT the last week in August. This camp is free for siblings ages 8-14 whose sibling is attending Camp Rising Sun the same week.

**First Descent World Headquarters**
3001 Brighton Boulevard, Suite 623  
Denver, CO 80216  
Tel: (303) 945-2490  
Fax: (303) 474-3005  
Email: info@firstdescents.org  
www.firstdescents.org  
First Descents is a free, seven-day kayak camp for young adults ages 18 or older with cancer. Started by professional kayaker and Nike ACG athlete Brad Ludden, the organization uses kayaking and other outdoor activities to help campers face challenges and overcome obstacles in preparation for those posed by cancer. In 2009, the program won The Cancer Fighters Award.

**Hole In The Wall Gang**
565 Ashford Center Road  
Ashford, CT 06278  
Tel: (860) 429-3444  
Fax: (860) 429-7295  
www.holeinthewallgang.org  
The Hole in the Wall Gang Camp, founded by Paul Newman in 1988, is a nonprofit
residential summer camp. It is an ingeniously designed and dazzlingly equipped Wild West hideout in northeastern Connecticut, where children with cancer and other life-threatening illnesses do not have to sit on the sidelines. More than 1,000 children and adolescents (ages 7-15) from across the country and abroad attend each year for free. The camp also offers a week for siblings in the summer.

Joseph’s Journey
P.O. Box 150453
Lakewood, CO 80215-0453
Tel: (303) 989-5710
Email: info@josephsjourney.org
www.josephsjourney.org
Inspired by their young son’s ambitions, hardships, and endurance, Joseph’s parents founded this camp. Because Joseph’s dream to embark on a caribou hunt was left unfulfilled—the investments for which (a box of pocket change) his parents found after his death—this camp is dedicated to providing wilderness experiences to children with life-threatening illnesses. Their adventures include hiking, fishing, camping, hunting, and climbing, all of which are led by experienced, qualified guides.

Lighthouse Family Retreat
45 Technology Parkway South, Suite 225
Norcross, GA 30092
Tel: (678) 290-2955
Email: info@lighthousefamilyretreat.org
www.lighthousefamilyretreat.org
Founded in 1999, Lighthouse Family Retreat continues to serve families living through childhood cancer by enabling them to laugh, restore family relationships, and find hope in God.

The Okizu Foundation
16 Digital Drive, Suite 130
Novato, CA 94949
Tel: (415) 382-9083
Fax: (415) 382-8384
Email: info@okizu.org
www.okizu.org
Okizu is committed to the continuing support of the oncology and siblings camping programs. The Foundation’s mission is to provide peer support, respite, mentoring, and recreational programs to meet the needs of all family members. Okizu offers a variety of camps for kids, teens, young adults ages 18 or older, siblings, and families.

Silver Lining Ranch
Little Star Foundation
174 Watercolor Way, Suite 103, B343
Santa Rosa Beach, FL 32459
Toll-Free: (800) 543-6565
Email: info@littlestar.org
www.littlestar.org
The Benedict-Forstmann Silver Lining Ranch program is home for up to twenty children per session throughout the summer, finishing up the year with winter ski groups. Horseback riding, whitewater rafting, campfire picnics and downhill skiing are the adventurous settings in which children share common medical challenges and establish lifetime friendships. A pediatric oncologist, oncology nurse, counselor, and social worker are available 24 hours per day.

Email: info.childrenswish.org
www.childrenswish.org
This foundation has fulfilled the wishes of children (ages 18 and younger) with life-threatening illnesses in 32 countries around the world. For children too young to express their wishes, the organization’s Young Minds Program can help determine what their wishes might be.

Dream Come True of Western Connecticut, Inc.
P.O. Box 2415
Danbury, CT 06813
Tel: (203) 790-7333
Email: dreamcometruect@yahoo.com
www.dreamcometruect.org
Dream Come True of Western Connecticut was founded in 1984 with one purpose in mind: to grant dreams to seriously, chronically, and terminally ill children from Fairfield, Litchfield, and New Haven counties. Some dreams that have been granted include trips.

Little Wonder
4 Science Park
New Haven, CT 06511
www.littlewonder.org
sharon@littlewonder.org
Little Wonder is a 501(c)(3) non-profit organization dedicated to enriching the lives of patients suffering from cancer by providing them tickets to local concerts, family
entertainment, live theater, and sporting events. Thousands of these tickets go unused every day and our goal is to reserve those empty seats on behalf of patients undergoing treatment for cancer and their families. This experience is completely free of charge to the people we serve.

We believe that the opportunity to create positive memories with family and friends can be a powerful experience for a family dealing with the unimaginable struggles of a cancer diagnosis.

**LIVFREE**

www.livfreetoday.org  
Our mission at LIVFREE is to provide 100 families that are battling pediatric cancer and its treatments, tickets to attend an event of their choice. As parents of a child currently fighting cancer, we know how important family time is.

**Make-a-Wish Foundation of America CT Chapter**

126 Monroe Turnpike  
Trumbull, CT 06611  
Tel: (203) 261-9044  
Toll-Free: (877) 203-9474  
Fax: (203) 268-2168  
Email: Conn@CT.Wish.org  
Email: nancydiehi@ctwish.org  
www.Wish.org  
The Make-A-Wish Foundation has enriched the lives of children with life-threatening medical conditions through its wish-granting work since 1980. The foundation’s mission reflects the life-changing impact that a Make-A-Wish experience has on children, families, referral sources, donors, sponsors, and entire communities. This chapter grants wishes to children and adolescents (ages 0-18) with life-threatening illnesses throughout the state of Connecticut.

**The Marty Lyons Foundation, Inc.**

354 Veterans Memorial Highway, Second Floor  
Commack, NY 11725  
Tel: (631) 543-9474  
Fax: (631) 543-9479  
The Marty Lyons Foundation, Inc. is a nonprofit organization established to fulfill the special wishes of children who have been diagnosed with a life-threatening or terminal illness. The wish applicants must reside or be treated in the following geographic areas: Connecticut, Florida, Georgia, Maryland, Massachusetts, New Jersey, New York, North Carolina, Pennsylvania, South Carolina, or Texas. MLF provides a first and second wish. The Second Wish Program is for children who have received a first wish 24 months prior, have exhausted all medical options, and are essentially at end-of-life stage or are receiving hospice care.

**Special Wishes**

P.O. Box 391 Oakville, CT 06779  
Tel: (860) 274-5224  
Fax (860) 274-1598  
Special Wishes, Inc. was founded in 1986 out of love and compassion for children stricken with life-threatening illnesses. Our mission is to make a dream come true for children whose horizons are measured in
months or days, and whose dreams of what they will become when they grow up are secondary to dreams of getting well. Special Wishes, Inc. gives Connecticut children between the ages of 3 and 21 whatever happiness we can - a moment of joy - by making a wish come true. Whether it be a trip to Disney World or another special destination, tickets to a rock concert or sporting event, a day with a favorite movie star or professional athlete, or a special shopping spree, we make wishes come true.

**The Starlight Children’s Foundation**
**NY – NJ – CT**
1560 Broadway Suite 600
New York, NY 10036
Tel: (212) 354-2878
Email: info@starlightnyc.org
www.starlight-newyork.org

The mission of the Starlight Starbright Children’s Foundation NY/NJ/CT is to brighten the lives of seriously ill children, and their families, through imaginative and resourceful programs and services that empower, educate, and inspire. Each year, this foundation serves over 250,000 critically, chronically and terminally ill children throughout New York, New Jersey, and Connecticut.

www.miracleflights.org
This organization purchases commercial airline tickets, uses private aircraft, and combines resources from individual donors to provide free transportation to medical treatment centers all across America.

Patient AirLift Services
120 Adams Boulevard
Farmingdale, NY 11735
Tel: (888) 818-1231
www.palservices.org
E-mail: info@palservices.org
Patient AirLift Services covers flights in the entire northeast United States as far west as Ohio and as far south as Virginia for patients who must travel great distances for treatment or are too fragile to endure a regular flight.

Wings – Flights of Hope
P.O. Box 872, Orchard Park, NY, 14127
Phone: 1-(866) 61-WINGS(94647)
Phone: 1-(716) 525-0229
Email: wingsflight@gmail.com
www.wingsflight.org
Commercial flights often restrict patients from travel, due to germs and schedule. This is where Wings Flight can fly the patient as the aircrafts are continually taking in fresh air through the flights. Patients are allowed to keep their oxygen with them and in use on all Wings Flights. Wings Flights are available to all that may need medical attention. Many of our patients are children, however adults of all ages are also flown FREE of charge. All patients have the option to have family members join them on the flights, also FREE of charge.
PLACES TO STAY

There are several low cost places to stay if you are in treatment far from home.

In Boston:

AstraZeneca Hope Lodge Center
125 S. Huntington Avenue
Jamaica Plain, MA 02130
Tel: (617) 396-5500
http://www.cancer.org/treatment/support-program-services/hopelodge/boston
This state-of-the-art facility serves as a “home away from home” for patients traveling more than 40 miles to their outpatient treatments. There is no charge to stay at Hope Lodge, for either the patient or his or her caregivers. The center allows patients to focus on their recovery by providing 40 private patient suites, each with a sitting room, bathroom, and bedroom with two beds; common areas including a library, courtyards, and a meal preparation and dining area; transportation to treatment; and the on-site resources of an American Cancer Society Quality of Life Center American Cancer Society. There is often a 1-2 month wait.

Christopher’s Haven
One Emerson Place, Suite 2-N
Boston, MA 02114
Tel: (857) 233-4178
Fax: (857) 753-4734
http://christophershaven.org
Christopher’s Haven is a home for kids and their families while they battle cancer. The home is a support system to help with things large and small, and a community where families can be together, share a laugh, be comforted, and comfort others.

Ronald McDonald House
229 Kent Street
Brookline, MA 02446
Tel: (617) 734-3333
www.ronaldmcdonaldhouseboston.org
For pediatric patients and their families.
$10 per night.

In New York City:

Ronald McDonald House

*www.childrenscause.org*

The Children’s Cause is dedicated to accelerating the discovery of and access to innovative, safe, and more effective treatments for childhood cancer through education and advocacy. The website provides information about FDA guidelines, NCI cancer policies, medical privacy issues, current clinical trials, and key resources.

**The Stanford Health Library**
Main Branch
Hoover Pavilion
211 Quarry Road, Suite 201
Palo Alto, CA 94304
The Stanford Health Library provides scientifically based medical information to help visitors make informed decisions regarding healthcare and their health. Some services offered by the library include “Don’t know what to make of a new diagnosis?” and “Drowning in information?” All of their services are free.
The Children’s Hospital of Philadelphia is a pediatric hospital and research facility staffed by internationally recognized pediatric oncologists and teams with expertise in every type of pediatric cancer. The hospital’s experts, who have experience treating both the most common and the most rare childhood cancers, work together to diagnose and treat patients using an evidence-based approach backed by the latest research advancements.

Connecticut Children’s Medical Center
282 Washington Street
Hartford, CT 06106
Tel: (860) 545-9000 or (800) 243-1552
Kidsline: (800) 243-1552
www.connecticutchildrens.org
The goal of Connecticut Children’s Medical Center is to provide medical care for children and families. Every inpatient child has a private room, and parents are encouraged to room-in at the medical center. Families are involved in all aspects of a child’s care. An understanding of the developmental and emotional needs of children guides how the staff will care for them. Child Life specialists, on staff seven days of the week, work to make the hospital experience comprehensible and, therefore, less frightening for the children.

The Division of Hematology/Oncology provides comprehensive care for pediatric patients with related problems. It provides diagnosis and management services for children with anemias, neutropenias, thrombocytopenias, coagulation disorders, leukemias, and all solid tumors.

Dana-Farber Boston Children’s Hospital
Cancer Care

The National Marrow Donor Program has the world’s largest computerized listing of potential bone marrow donors and offers cooperative search arrangements with many other registries worldwide.

Yale New Haven Children’s Hospital
The pediatric blood and marrow transplantation program offers bone marrow, peripheral blood stem cell and cord blood transplants. Children are cared for by a highly trained and knowledgeable medical team that understands the application of research-based therapies and the care needed for pediatric patients undergoing transplantation.

COMPLEMENTARY THERAPIES
What works for some may not work for others. The important thing is to find out what works for YOU and YOUR situation. Others have found that some of the practitioners in this section have been able to help them through this particular period of illness. Here is where you might want to discuss some of these things with a buddy you have met in a support group or online group. Always check with your doctor before beginning any alternative therapy.
SPECIALIZED CARE

Acupuncture
Acupuncture is a traditional Chinese medicine that is used to relieve pain and other symptoms while generally improving the quality of life. It is often used to relieve vomiting and nausea from chemotherapy. It is administered using needles, heat, pressure, and other treatments to the skin at points known as acupuncture points. This practice is meant to simulate energy flow or “chi,” which is believed to circulate through the body along specific routes. Yale Hospital has a practitioner who administers acupuncture care.

Reiki
Reiki is a Japanese healing technique based on the principle that the therapist can channel energy into the patient by means of touch to activate the natural healing processes of the patient’s body and restore physical and emotional well-being.

Academy For Guided Imagery
30765 Pacific Coast Highway, Suite 355
Malibu, CA 90265
Tel: (424) 242-6369
Email: info@acadgi.com
www.acadgi.com
This organization trains health professionals to use interactive guided imagery with their patients and clients. They can assist with locating a professional in your area to help your child learn visualization techniques. Self-care books and tapes on guided imagery are available for purchase.

American Institute for Cancer Research

Integrative Medicine at Yale University
2 Church Street South, Suite 300
New Haven, CT 06519
Email: integrativemedicine@yale.edu
medicine.yale.edu/integrativemedicine/
Integrative Medicine at Yale is a program de-
signed to provide a sustainable, central forum at Yale for interdisciplinary, inter-institutional, and international collaboration, research and education in complementary, alternative and integrative medicine.

**Kula for Karma**  
Tel: (888) 545-9642  
*Email: info@kulaforkarma.org*  
Kula for Karma offers therapeutic yoga programs, through a dedicated network of specially trained volunteer instructors, at no cost to people with physical, mental and emotional challenges. We work with the medical community to complement traditional approaches to healing those with illness, disease and chronic pain, and those recovering from abuse, trauma and addiction.

**National Center for Complementary and Integrative Health**  
9000 Rockville Pike  
Bethesda, MD 20892  
Toll-Free: (888) 644-6226  
Hearing Impaired: (866) 464-3615  
*Email: info@nccih.nih.gov*  
The National Center for Complementary and Integrative Health is dedicated to exploring complementary and alternative healing practices, training complementary and alternative medicine researchers, and disseminating information to the public and professionals. Their website offers live help with a health information specialist Monday through Friday, 8:30 a.m. to 5 p.m. EST.

**Oncolink**  
[www.oncolink.org](http://www.oncolink.org)  
This resource provides information and video segments on specific complementary and alternative therapies, how to discuss the topic with your doctor, and how to choose a reliable provider.

**Quackwatch**  
[www.quackwatch.com](http://www.quackwatch.com)  
This resource provides information on claims of complementary and alternative therapies proven to be unsafe, or the effectiveness of which has not been proven. The organization is now an international network of people who are concerned about health-related frauds, myths, fads, follies, and misconduct. The website provides valuable information that is otherwise difficult to find.
LIFE AFTER CANCER

Fantastic! You have completed treatment and been given the go ahead to resume normal life. But wait a minute. What IS normal now? This section is here to guide you as you get ready to move forward. Everyone’s journey is different. And each family faces their own challenges, but rest assured that someone, somewhere, is feeling just as you are now. Talking through how you will manage all of the “what if” scenarios you have in your head can be helpful. Just as you did in the beginning of this journey do not be afraid to ask questions and accept help.

Connecticut Challenge
250 Pequot Avenue
Southport CT 06890
Tel: (203) 292-8722
www.ctchallenge.org

CT Challenge provides programs for children, young adults and adults post treatment. The vision of the CT Challenge is linked to our deep history of blending sports with a passion for supporting cancer patients and survivors. By building community support through first class events such as the CT Challenge Charity bike event, our goal is to provide avenues to attract energetic people who share our mission to empower cancer survivors to live healthier, happier and longer lives.

Heros Clinic
Yale New Haven Children’s Hospital
20 York Street
New Haven, CT 06510

Yale-New Haven Children’s Hospital has a heros clinic for survivors of childhood cancer. Thankfully, more children are surviving cancer than ever before and enjoy healthy, active lifestyles; however, they are left at an increased risk for subsequent neoplasms, congestive heart failure, osteoporosis, decreased fertility, PTSD, and learning disabilities. This clinic was established to exclusively help children and adults who were treated for cancer more than five years ago. Patients are seen twice a month to supplement care given by their primary doctors. For more information and a pamphlet, call (203) 688-2000 or toll-free (888) 700-6543.

Long-Term Effects of Childhood Cancer Treatment
www.cancersurvivorchild.org

This site provides overviews of the essential components of physical concerns, psychosocial care, and future issues that a survivor, his or her family, and healthcare providers need to consider. It also provides personal stories of the survivors.

National Coalition for Cancer Survivorship (NCCS)
1010 Wayne Avenue, Suite 770
Silver Spring, MD 20910
Tel: (301) 650-9127
Toll-Free: (888) 650-9127
Fax: (301) 565-9670
Email: info@canceradvocacy.org
www.canceradvocacy.org

This organization addresses the needs of long-term cancer survivors, and advocates
for change in healthcare to maximize the survivor’s access to optimal treatment and support. It also provides an extensive list of helpful publications.

Reach for the Stars
Eileen Gillan, Medical Director
Pediatric Oncology Department
Connecticut Children’s Medical Center
282 Washington Street
Hartford, CT 06106
Tel: (860) 545-9630
Email: STARRSurvivorship@Gmail.com
www.starrsurvivorshipclinic.com

We believe that individuals who have survived cancer, and its therapy, have been strengthened by their experience and strive to make the most of their life. Our cancer “Survivors Tackle All Roadblocks Successfully!” and “REACH for their own STARS” in life.

The “REACH for the STARS Survivorship Clinic” at Connecticut Children’s Medical Center recommends individualized periodic evaluations and medical follow-up directed at current and potential late effects. The clinic emphasizes education for young adults transitioning to managing their health with a goal of medical autonomy and a healthy lifestyle. Our clinic will provide a comprehensive summary of all your treatments, summarized in your web STAR Passport. As you tackle transitioning to adulthood, you will be taking fun quizzes with rewards to encourage you to learn about your disease, its treatment, long-term side effects, and health and wellness. The recommendations for your future surveillance and care will be based on the comprehensive Children’s Oncology Group (COG) CureSearch Healthy Links.

SUGGESTED READING
As with most new experiences there are others who have gone before you. We have included books for patients of all ages that can be read to little ones and read by teens. This section also gives you some practical resources that can give you in-depth answers in the form of books, articles and periodicals on subjects as varied as how to talk to your family about cancer and a patient workbook that provides everything you need to stay organized and informed. Information is power. Get it and use it!

I Can Survive
For the Survivor in Each of Us!
By Jennifer May Allen
ISBN 9780944235768
The poetry, optimism, and humor in this award-winning book will encourage cancer patients young and old and their families to find and cherish the small moments and be inspired to express love and support.

My Cancer Days
By Courtney Filigenzi
ISBN 9781604430912
This picture book blends vibrant watercolors with a touching story to show the emotional ups and downs of a little girl going through
cancer treatment. This realistic but hopeful look at a child’s experience with cancer can help children express themselves, and it can help the adults in their lives offer the support they need.

The Survivorship Net
A Parable for the Family, Friends, and Caregivers of People With Cancer
By Jim Owens
ISBN 9781604430189
The author of this beautifully illustrated book uses the parable of circus life to underscore the importance of family, friends, and caregivers in the life of every cancer patient. At once a children’s book and a book for “children of all ages,” it delivers a powerful and inspiring message to one and all.
The information in this book contains online resources for parents and families of children with cancer. Each resource has been checked for accuracy at the time of printing. Check our website for updates. www.thecircleofcare.org

Before making any changes to your routine and/or medical care always seek the advice of your child’s doctor.
